WHEN
RESULTS MATTER

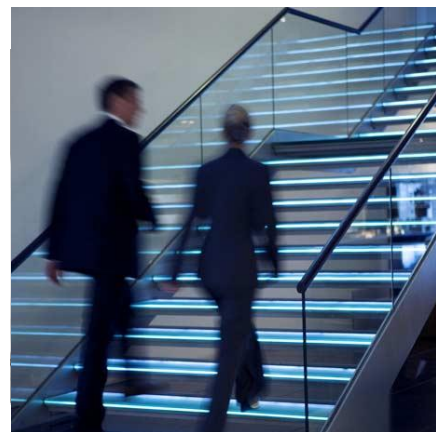

Trust, discretion, honesty, confidentiality, professionalism, are all strong words but how many companies can fulfill even just a few?

Reactive to your needs

Ensuring you are treated with the utmost importance is a service we believe is standard practice and second nature...

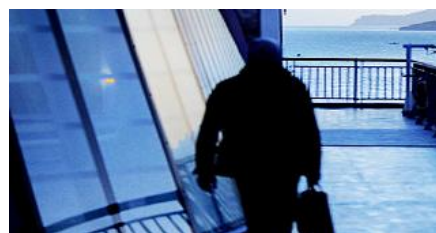

Every instruction we receive from our clients is treated with the utmost importance. Your instructions, case or assignment will be assessed with great detail ensuring we are totally conversant with your request before we start. This minimizes any risk of misunderstanding from either parties and allows us to proceed with clear and concise information.

Concise & Periodic reporting

We understand the urgency that some of our assignments have attached to them, this is why we never leave you in the dark...

There is nothing more frustrating than not knowing what is going on! - We report to our clients regularly and in-line with their agreement, allowing the client to be fully up to speed on the development of the case. In addition, we shall never exceed any pre-agreed fees without prior consultation with the client. We are proud of our level of customer service.

We are real people...

We are not a franchise or a back office environment whereby every instruction is contracted out to other agents. The majority of our instructions are carried out by our own team of professionals.

No instruction too small or large!

Our services extend to cover a huge multitude of professional services related to the investigative sector. If you are not sure if we can be instructed for a particular task just contact us.

Achieving your objectives...

We make every effort to stay in close contact with our clients to keep them fully informed of the progress so that if the need arises there is an opportunity to reevaluate the situation and make decisions that will be more productive.

Operating an honest and fair approach, we believe we earn the respect of our clients.

Advantages of using us?

Professional service that you can trust and a dedication to get results

We never cut corners, never. Because we go to great lengths to ensure every client we deal with receives total satisfaction guaranteed. Our policy is keeping you, the client happy every step of the way, even if it means going the extra mile, we will, in order to achieve what we set out to do.

We believe our prices are fair and reasonable.

Our service, however, is second to none.

“Thank you for your endeavors”

“Seagal Investigations asked me if I would provide some feedback with regards to a recent instruction they carried out on my behalf.

The team assisted my partner and I to gather enough evidence to put in front of a legal team for the purpose of a financial issue we had been dealing with for many months. We were reassured from the moment we met with them and felt that we could put our trust in Chris and his team.

Within 48 hours I was in receipt of evidence we had not been able to obtain in the past. By the end of the week Chris and his team had produced a significant amount of evidence, both in the form of stills and video. I was also amazed on how accurate the tracker device was.

Without your assistance we would not be positive about the future, moving forward it looks like the evidence you obtained is going to prove very successful in our case.

I thank you and your team and would not hesitate in recommending you”

The professionals choice

Instructing Seagal Investigations Ltd may just possibly be one of the best investments your organisation could make...
